

# Gabriel Flores Bardales

Full-Stack Web Developer

[gabriel.flores.2296@gmail.com](mailto:gabriel.flores.2296@gmail.com) | +51 992 801 773 | [LinkedIn](#) | [GitHub](#)

I am a Web Developer fluent in both Spanish and English. Reliable, responsible, with strong leadership skills and a passion for learning. Committed to staying up-to-date with the latest technologies, I am eager to deliver innovative solutions and contribute to project success.

## TECHNICAL SKILLS

Javascript	HTML	CSS
Ruby	Rails	React
Relational Databases	Scrum Framework	Git/Github Python

## PROFESSIONAL EXPERIENCE

*MAJOREL* March 2020 – January 2022 **Regional Quality Process & Training Manager**

- Led a regional team of quality auditors, trainers, and local coordinators from Colombia and Perú in a customer service project for a major Retail company and promoted their growth and development in the project to be better suited for taking on new coming challenges.
- Ensured the timely onboarding and training of new recruits for the project, as well as the constant auditing and feedback of associates' performance to meet and surpass the quality expected from clients in every interaction.
- Participated in weekly and monthly meetings with internal and external client's project leaders, presented site results and handled any needed tasks in a timely manner, bringing attention to the site's achievements and ensuring any improvement needed is taken care of maintaining client's trust.

## PROJECTS

- Personal Webpage: Webpage that shows more detailed information on my personal and professional profile. Static page build using Vite JS and React.
- Statify: Webpage showing the latest releases on Spotify relevant to specific countries. Build using React and consumes the Spotify API. Deployed in Netlify.

## EDUCATION

*CODEABLE* February 2022 – July 2022 **Web Development**
